

	Comment Written On Post It Note	Reply To Comment By Parish Council
1.	Brilliant idea for sports facilities but don't like PC "office"	
2.	Love the improvements to football facilities. Still don't agree with office or position of MUGA.	The position of the MUGA has been looked into extensively and the proposed location makes best use of the available space
3.	Outdoor gym facilities like Ivinghoe cycle path	These facilities will be looked at for the Jubilee Green update, which will be the next project
4.	Floodlights for the tennis courts are essential for its long term future. I am confused the Floodlights seemed to 'disappear' from the development plan	The Parish Council will work with the Tennis Club to secure funding for floodlights
5.	Drinking fountain for people and dogs	Access to water is being looked into, with the possibility of 2 locations available
6.	It seems a shame that the tennis club don't have floodlights. Is this possible? Do villagers understand this won't be Wembley?!!	The Parish Council will work with the Tennis Club to secure funding for floodlights
7.	There was mentioned on a FB group about a 'pump track'. This would be great for all ages o children on bikes, scooters & skateboards.	Having a path/track around the recreation ground is being looked into. It needs to fit around the football pitch, different types of surface to include running, wheelchairs, pushchairs, bikes etc and also the cost needs to be investigated.
8.	Would love outside gym low noise and fun for all ages	These facilities will be looked at for the Jubilee Green update, which will be the next project
9.	All these sports great idea!! Parents need shelter and a coffee how about a Cafe?	Wing Football Club will make tea and coffee for the spectators whilst the Wing Raiders are playing. There is a commercial operation looking to open a café in the village so there are no current plans to open a café on the recreation ground.
10.	Lots of football but what about cricket? Picnics? Somewhere for those without gardens so they can just sit in the sun?	Cricket facilities are provided within Ascott. The recreation ground is not allowed to have a full pitch for cricket due to the close proximity to the A418. Having a practise net within the MUGA is already included in the current plans. Part of the replanting of the recreation ground includes a seating/picnic area. The football pitches will still be available to everyone except when matches are being played. The goal posts are going to be removable ones
11.	Additional seating	The Parish Council will look at extra benches but part of the replanting of the recreation ground includes a seating/picnic area
12.	Re conversation with Sarah Tennis Floodlights from Martin Grant S106. They are crucial to the survival of the club.	The Parish Council will work with the Tennis Club to secure funding for floodlights
13.	If there will be improvements made to the children's park or play area then some facilities for children with disabilities, ie floor trampoline in the ground, slat zip wire, sensory areas	These facilities will be looked at for the Jubilee Green update, which will be the next project
14.	Is there the ability to have a 'pet exercise area'?	No, this has been looked into and it was too restrictive on the recreation ground. There is access to Heley's Field.
15.	Hoping the the new facilities will also have appropriate equipment for older people, not just children	These facilities will be looked at for the Jubilee Green update, which will be the next project
16.	If a drinking fountain could be outside for use when clubhouse isn't open (also maybe a dog fountain as well)	Access to water is being looked into, with the possibility of 2 locations available

17.	Will there be an area for 'other' facilities not all kids/adults are sports <u>oriented</u> ?	Part of the replanting of the recreation ground includes a seating/picnic area
18.	Would like to see some details of planting of trees as this could have a big impact on views of locals on Leighton Road. Thanks.	The current plan for replanting is included on the recreation ground plans located
19.	Without Floodlights Wing Tennis Club <u>will NOT survive</u> . It has a number of Tennis clubs near by with light facilities.	The Parish Council will work with the Tennis Club to secure funding for floodlights
20.	How will the maintenance of the facilities be funded? What are the costs & how much will need to be raised?	There will be a management committee set up including all the stakeholders
21.	Thought: A running track around the football pitch? Make a little more effort to reach a lot more parishioners? More inclusive?	Having a path/track around the recreation ground is being looked into. It needs to fit around the football pitch, different types of surface to include running, wheelchairs, pushchairs, bikes etc and also the cost needs to be investigated.
22.	Is there going to be another crossing on Leighton Road?	The Parish Council will continue to petition for safer crossings to Bucks CC
23.	A detail statement about balance vs harm needs to be put forward in relation to tree removal. A DDA ramp design should be considered at this stage.	This has been assessed and we have a replanting strategy. The DDA ramp is a legal requirement so it is already included. We are looking into the lowest possible gradient for the ramp to make it as easy as possible for wheelchair users and pushchairs to access the facilities.
24.	Would it be possible to include some outdoor gym equip on the boundary? (See Ivinghoe. Away from park (keeping little ones safe) teens and adults can access them)	These facilities will be looked at for the Jubilee Green update, which will be the next project. There is the possibility of a separate area within Jubilee Green
25.	Is there going to be any facilities for those with additional needs?	These facilities will be looked at for the Jubilee Green update, which will be the next project
26.	The original plans included improvements inc floodlights for the tennis club. These are not evident in the plans.	The Parish Council will work with the Tennis Club to secure funding for floodlights
27.	Great for the village & the kids.	
28.	Great plans cannot wait to have a kickabout	
29.	Please stress even more to people that the funding <u>will</u> be lost if it is not used or this!	
30.	Seeing the state of the pavilion shows the need for improvements. Good opportunity to add to existing facilities.	
31.	AMAZING	
32.	Sooner the better	
33.	Fabulous can't wait to see it finished!	
34.	Excited to use it	
35.	Very positive and a great chance to improve our facilities. Will provide the opportunity to push the appropriate authorities for better and safer crossings. We must not lose this funding! Please try to include floodlights for the tennis court if possible. Outdoor gym equipment around the edge, perhaps? Can we include drinking fountains, adequate bins and toilet access.	The Parish Council will work with the Tennis Club to secure funding for floodlighting The outdoor gym facilities will be looked at for the Jubilee Green update, which will be the next project Access to water is being investigated, with the possibility of 2 locations available
36.	Can only be good for everyone in the village. I am in favour. Please exercise machines for adults/teenagers/elderly.	The outdoor gym facilities will be looked at for the Jubilee Green update, which will be the next project
37.	Love the new proposed pavilion layout (didn't like the portacabins)	

38.	Would like any area to play sports and have fun. I would like a netball court. Great idea.	The MUGA will include the markings of a netball court and there will also be the nets
39.	I can't see any reasonable argument for objecting to these plans preventing investment into our village that will benefit the majority of the children. Potentially increasing the value of properties in the village, reducing the crime rate and health and well being of our children! GO GO GO!!!	
40.	A well thought through development which will be very good for the village on this field.	
41.	Great plans, looking forward to using the MUGA for the benefit of everyone.	
42.	Good idea, the village needs more facilities to do with sport/outdoor facilities, especially for children.	
43.	Sad about cutting the trees down but the area has been played for longer than the trees have been here.	There is a replanting strategy to replace the trees
44.	It is brilliant and bring it ooooooo	
45.	We have wanted this for years. Don't be a nimby and do something to benefit the youth.	
46.	Great plans can't wait to book it.	
47.	Simply great. Carry on and get on with <u>IT</u>	
48.	Plans and layout look very good. New facilities needed. Welcome change.	
49.	Looking forward to having expanded facilities to use. As Wing Raiders are going from strength to strength.	
50.	Good idea! As long as the MUGA surface is suitable for football. Do need more match day pitches!	The MUGA will have a football pitch marked out with the goal nets too.
51.	Great! Let's do it especially the MUGA :D	
52.	We desperately need the new facilities ASAP	
53.	Very much in favour of the MUGA & additional football pitches	
54.	We need to develop the facilities in the village. The better facilities will bring people into the village on a <u>TEMP</u> basis and they support the shop, restaurants + pubs. If they are not supported they will close.	
55.	Without improved facilities we will lose kids to other teams and Wing will just become a dead village with no kids and no fun	
56.	GREAT PLANS our kids will love it and use it	
57.	Brilliant fantastic perfect	
58.	Can only be a + thing for the village - fingers crossed for planning.	
59.	Great plans needed asap wish they had these when my children were growing up	
60.	Really excited	
61.	Great	
62.	Thumbs Up, WIN WIN	
63.	I agree and support council plans. My family and I are new to the village and its exciting to be part of the development of new facilities.	
64.	Very good for the village	
65.	Do it now	
67.	<u>Long overdue!</u>	
68.	A much needed facility for a growing village. MUGA will be good for ALL ages. Parish Council	

	office needed so Clerk doesn't have to store Parish Records at home/ GDPR issues etc.	
69.	Shame more stuff could not be fitted in	
70.	The new building will provide a meeting point for other groups, as well as a 'heritage' centre	
71.	Well done Councillors a lot of work, as we can see here, has been carried out. I hope it completes without too many 'limp' objections	
72.	Just what the village needs. Good for all. Bring it on	
73.	Let it happen lets grow with the village for the future generation.	
74.	A good idea, make use of all the available funding for everyone in the village.	
75.	All in favour. Should galvanise need for Pedestrian Xing by Issha	
76.	We have been living in Wing for over 25 years. I remember a MUGA being mentioned before I had my son. He is now 14!! This facility is long overdue!	
77.	The extra facilities are needed. I have to travel to Wingrave or Leighton to use a Mugga	
78.	Very shocked at the state of the pavilion! Really excited by the plans and all PC hard work appreciated.	
79.	Well done PC! Well thought out plans:- Village Plan at last - FAB	
80.	Thank you for your time & effort. This will be an amazing asset and facility for our village to use! Well done	
81.	At last: something that has been talked about for sooo long is finally coming to fruit. Can't wait to see it all completed.	
82.	Plans are great investment in village facilities long overdue	
83.	Up to 200 Wing based children who are part of Wing Raiders JFC will benefit immensely from this development for many years to come!	
84.	Exited to use it	
85.	Why shouldn't Councillors have a building 'fit for purpose'. Our Council Tax would pay rent for any building they rent.	
86.	Amazing	
87.	Get on with the development before the cash vanishes.	
88.	(Question on additional needs) However, I am I agreement with the proposed plans.	The additional needs facilities will be looked into as part of the Jubilee Green update, which will be the next project
89.	Improve the village and all kids will benefit. Exciting times!!	
90.	Positive moves to improve village facilities.	
91.	Good plan, something anyone can use. And finally a good place to play football with my friends.	
92.	I think it is a good idea Age:11	
93.	The Charity Commission only allows for sports & leisure facilities on the Rec. How do offices adhere to this?	The Parish Council has written to the Charities Commission and is awaiting their reply.
94.	The novelty won't last	
95.	Majority of village recently voted <u>against</u> this and for other uses of funding	The only vote that took place was during the referendum for the Neighbourhood plan which is

		where this project has stemmed from. 760 people voted at the referendum, 718 yes and 42 no.
96.	Inaccessible for the disabled. Our wheel-chair bound neighbour couldn't even attend today due to lack of access. Put facilities by the car park.	This is being addressed by the proposed DDA footpaths to the facilities, including a ramp which will be the lowest gradient possible
97.	What justification is there for a parish council office and a community space?	The Parish Council Office was included in the Neighbourhood Plan and the community space is required for the football clubs.
98.	Concerns about entrance and exit of car park. Also loss of trees.	The entrance and exit of the car park has already been addressed in the plans and the splay will be improved.
99.	<u>Wing Hall</u> could be used for <u>storage</u> and <u>exhibiting</u> . Need to support <u>existing</u> facilities so they can continue e.g. floodlights for tennis. Facilities - bowls club improve to FA standards for footballers	The Parish Council will work with the Tennis Club to secure funding for the floodlights, they have received funding from the Parish Council towards the resurfacing of the courts. The Bowls Club have some funds set aside. The new plans for the pavilion would bring the facilities up to FA standards.
100.	Not happy about taking people away from village hall.	The new building would not be taking people away from the village hall. The Parish Council public meetings will still continue in the village hall and the community space will mainly be used by sports teams when they use the football pitches or the MUGA.
101.	The <u>specific</u> positioning of the facilities should be re worked to suit <u>all</u> & save the trees	The Parish Council has looked at numerous options when discussing the improvement to the facilities and the current plan is the best option given the space available. There is also a replanting strategy for the recreation ground
102.	Unmanned facilities? Security risk?	
103.	Loss of trees that have been here a long time. More people will be crossing the busy road. Especially children. Will you make this easily accessible for the disabled?	There is a replanting strategy for the recreation ground. The Parish Council will continue to petition for safer road crossings. There will be DDA footpaths to all facilities and include a ramp with the lowest gradient available on the land.
104.	A village is supposed to be more rural	The Parish Council is just improving the village facilities
105.	<u>Danger Free</u> facilities in <u>new</u> building will take revenue <u>from</u> hall!!!	The new building would not be taking people away from the village hall. The Parish Council public meetings will still continue in the village hall and the community space will mainly be used by sports teams when they use the football pitches or the MUGA.
106.	Not everyone is sport orientated.	The recreation ground replanting strategy has an area for seating/picnics and people will be able to use the recreation ground for relaxing as well as sports.
107.	USE IT OR LOSE IT IS <u>NOT</u> exactly true there are <u>years</u> to use the money	We have to submit the New Homes Bonus by Friday 27 th July or we will lose the funding we already have secured from this line of funding. The S106 funds must be spent on a MUGA on the recreation ground and general sports and recreational facilities highlighted in the SPG.
108.	A number of factual inaccuracies. Doesn't seem to be a consultation. We came with ideas to accommodate these facilities in a position that will please everyone and no one will listen!!	This has been a consultation and a lot of suggestions people have put forward are being looked into and as long as they are feasible and

		not too costly, the Parish Council will discuss whether to include them.
109.	Floodlights directly opposite our bedroom window is <u>not on</u> . Removal of trees an unnecessary act of vandalism. Look at all the kids playing in the willow today!?	The floodlights will be LED downlighters like the new street lighting that was put in a few years ago. The light survey that was carried out shows that light from the floodlighting would be negligible to non-existent by the roadside.
110.	No consultation with residents affected. In 2011 we weren't invited. (Added by another person - there was consultations available for all residents of Wing. You didn't bother going)	There were several consultations during the time of the neighbourhood plan to which all houses were leafleted and large signs were put up across the village.
111.	What is there for people who don't play football? The Rec will now be a featureless football field.	The football field is just going to be resurfaced so it will still be available to everyone like it is now, the only exception will be during football matches. There would be a seating/picnic area and the MUGA will have netball courts and other sports marked out.
112.	Biggest concern is for the safety of children crossing the road to get to new facilities. Is there anything that could be done to improve safety	The Parish Council will continue to petition for safer crossings to Bucks CC
113.	Obviously the road is very busy and we will need another crossing	The Parish Council will continue to petition for safer crossings to Bucks CC
114.	I am concerned about more children crossing the busy and dangerous road to get here. Also there needs to be more wheelchair access.	The Parish Council will continue to petition for safer crossings to Bucks CC
115.	It does <u>not</u> need to be for recreation. That is the choice of the PC....	When the S106 agreements were drawn up with the developers, the funds had to be used on sport and recreation facilities.
